Reason for allowance

The following is an examiner's statement of reasons for allowance: in view of the amendment filed on 02-07-05, the prior art reference of records (US Pat. 6,650,152) fails to teach or fairly suggest a driver circuit comprising: subdrivers, wherein a low-harmonics current is generated in the driver circuit and supplied to a load, and wherein an edge steepness that is independent of the present load situation is set in the driver circuit as called for in claim 1. Therefore, claims 1, 2, 4-14, 16 and 17 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
